

Prescription Vacation Override Form (OAP and CCHP health plans only)

College Insurance Program (CIP) retirees and their covered dependents that are actively enrolled in one of the CIP OAP health plans or the CCHP health plan are eligible for 2 Prescription Vacation Overrides per year.

Employees and/or their covered dependents going on vacation or an extended stay outside of the United States, who require an early refill or who will need medications to cover a period greater than the current prescription refill, must request an exception for a Prescription Vacation Override for that time period.

Note: If you are enrolled in a CIP – HMO health plan you will need to contact your health insurance carrier to obtain information on their process for this type of request.

Employee Information

Employee Name: _____ Date of Birth: _____
