## Upcoming changes to your Plan's investment lineup.

The State of Illinois Deferred Compensation Plan continually strives to enhance services and provide a broad array of investment options to help you manage your account according to your individual needs. With this goal in mind, we are pleased to announce that a new investment option, the Vanguard Target Retirement 2065 Trust, will be available beginning July 1, 2020.

This investment option provides a pre-assembled mix of stocks and bonds aligned with a retirement occurring in the year 2065. Over time, it will systematically move from a more aggressive mix of investments to a more conservative one.

- You may want to choose this trust if it most closely matches the year you expect to retire.
- You may also choose a trust that better aligns with your own risk tolerance or financial circumstances.

### Selecting a vanguard target retirement trust

To find a target date investment that might work for you, determine which of the the following trusts most closely matches the year you expect to retire.

The principal value of target date funds is not guaranteed at any time, including at or after the target date, which is the approximate year an investor plans to retire. These funds typically invest in a broad range of underlying mutual funds that include stocks, bonds, and short-term investments and are subject to the risks of different areas of the market. In addition, the objectives of target date funds typically change over time to become more conservative.
