

# Prescription Vacation Override Form (OAP or TCHP health plans only)

Teachers' Retirement Insurance Program (TRIP) retirees and their covered dependents that are actively enrolled in one of the TRIP OAP health plans or the TCHP health plan are eligible for 2 Prescription Vacation Overrides per year. Employees and/or their covered dependents going on vacation or an extended stay outside of the United States, who require an early refill or who will need medications to cover a period greater than the current prescription refill, must request an exception for a Prescription Vacation Override for that time period.

**Note:** If you are enrolled in a TRIP health plan you will need to contact your health insurance carrier to obtain information on their process for this type of request.
