STATE OF ILLINOIS 2015

ASIAN AMERICAN Employment Plan

Respectfully submitted to the Illinois General Assembly
by Central Management Services

STATE OF ILLINOIS
OFFICE OF THE GOVERNOR
SPRINGFIELD, ILLINOIS 62706

Pat Quinn
GOVERNOR

January 12, 2015

Dear General Assembly Member,

The following is the 2015 report of the State Asian American Employment Plan which will provide continued increased access to state employment for Asian Americans and will assist with building a state workforce that more accurately reflects the diversity of our great state. The plan will be submitted by the Illinois Department of Central Management Services by February 1 as required by law.

The State Asian American Employment Plan is a result of P.A. 097-0856 which was enacted on July 27, 2012. It provides for the increase of Asian Americans at all levels of state government; tracking the state hiring practices of Asian American employees; increasing the number of Asian Americans promoted; and establishes the Asian American Employment Plan Advisory Council.

I believe that sustained efforts are required to create a more inclusive and representative state workforce that will ensure Illinois remains a leader in diverse employment practices that can serve as an example for all Illinois employers. The Asian American Employment Plan has been part of my administration's unwavering commitment to building a workforce that truly reflects the diversity throughout the Land of Lincoln.

Attached you will find the 2015 report of the State Asian American Employment Plan outlining the action steps of coded state agencies working toward a state workforce that more accurately reflects the diversity of Illinois.

During this reporting period, my administration collaborated with the Asian American Employment Plan Advisory Council and assisted in the development of this plan in collaboration with the Illinois Department of Central Management Services. While we have continued to make progress throughout my administration, there is always room for improvement to achieve full representation of Asian Americans at all levels of state government.

Throughout my administration, we have faced daunting fiscal challenges but have remained committed to promoting a work environment that is inclusive of everyone and leaves no one left out. I am confident that the Illinois Department of Central Management Services' Diversity Enrichment Program will continue to partner with the Asian American Employment Plan Council to meet the goals and objectives outline in this year's plan.

Sincerely,

A handwritten signature in black ink that reads "Pat Quinn".

Pat Quinn, Governor

DEPARTMENT OF CENTRAL MANAGEMENT SERVICES

Simone McNeil, Acting Director

January 12, 2015

Dear General Assembly Member:

Public Act 097-0856, enacted in July 2012, requires the Department of Central Management Services to prepare and submit to the General Assembly an annual Asian American Employment Plan reporting each agency's activities in implementing the plan. The legislation is part of the Governor's commitment to diversity in our workforce, including the recruitment, hiring, training, retention, and promotion of Asian American employees.

I submit the 2015 report for your review. Outlined in the body of this report you will find information on the status of the Asian American workforce of individual agencies, as well as their accomplishments in meeting the objectives of this important legislation. We invite your review of this report, as well as your comments and recommendations.

Of course, there are many benefits of having a diverse workforce, but perhaps the most significant is to enable State agencies to provide better services more efficiently to the public. As this report shows, much progress has been made during Governor Quinn's administration, and we look forward to witnessing continued efforts to increase the diversity of the State workforce.

Sincerely,

A handwritten signature in dark ink, appearing to read "Simone McNeil", is written over a light gray circular background.

Simone McNeil
Acting Director

I. State Asian American Employment Plan Background

The State Asian American Employment Plan was the result of HB 4510, which Governor Pat Quinn signed into law, becoming Public Act 097-0856 effective July 27th, 2012. Main components of the Act include: increasing the number of Asian American State employees within all levels, including those serving in supervisory, technical, professional and managerial positions; tracking hiring practices of Asian American employees; increasing the number of Asian American employees hired and promoted; and establishing the Asian American Employment Plan Advisory Council.

The legislation also requires the Department of Central Management Services (CMS) to prepare an Asian American Employment Plan (AsAEP) and report to the General Assembly each year by February 1 on agencies' activities in implementing the Plan. In turn, each agency is required to report annually to CMS all activities in implementing the AsAEP and shall do this in a format as prescribed by CMS in collaboration with the AsAEP Advisory Council.

In 2013, CMS implemented the first AsAEP and began collaborations with the AsAEP Advisory Council to develop the 2014 AsAEP. CMS continues to work collaboratively with the AsAEP Advisory Council to develop subsequent plans and update them with current demographics and employment statistics relating to Illinois' Asian American general population as compared to the Asian American State employee workforce.

In 2013, CMS, in partnership with the AsAEP Advisory Council, developed an on-line survey to assist agencies in reporting activities, strategies, and programs undertaken in accordance with the AsAEP. The first online survey was distributed to State agencies during the Fall of 2013. The inaugural on-line survey provided a detailed profile of the Asian American State employee workforce and helped in developing objectives for the next annual Plan.

The AsAEP Advisory Council has met once each quarter since March of 2013, and in addition to developing the on-line survey, assisted with targeted outreach efforts in the Asian American community. The Council has sponsored eight workshops geared toward informing community members about State employment opportunities and the State employment process. Featuring the participation of over a dozen State agencies and several dozen community co-sponsors, the eight workshops were held around the State in the following locations reaching more than 700 people:

- Sangamon County (Chatham Public Library)
- City of Chicago (Northtown Branch Library, Truman Community College, and JRTC)
- Suburban Cook County (Harper College and Oakton Community College)
- Champaign County (University of Illinois)
- DuPage County (College of DuPage)

II. Executive Summary

Data used for developing the 2015 report is based on calendar year 2014, a year in which State agencies regained some opportunities to hire. Overall, the State's workforce saw a net increase of 1,415 employees from 42,864 in December 2013 compared to 44,279 at the end of December 2014.

Data from 2014 shows that the total number of Asian American Personnel Code-covered State employees has remained steady at approximately 2.5%, with a modest increase of 31 employees, but a slight .02% decrease in percentage terms from 2013. This figure stands in contrast to the overall percentage of Asian Americans in the Illinois population, which was 5.2% according to the 2010 Census.

When considering the percentage of Asian American Personnel Code-covered State employees by county, data shows that out of the 11 counties where the Asian American population equals or exceeds the state average, only four had a higher percentage of Asian American state employees than the percentage of Asian Americans in the population. Improvement is needed in Champaign, Cook, DuPage, Jackson, McLean, Peoria, and Will Counties.

There are 1,098 Asian American Personnel Code-covered State employees across Illinois. The five agencies with the highest number of Asian American employees are the Department of Human Services, Department of Public Health, Department of Revenue, Department of Healthcare and Family Services, and Department of Corrections. In four of these five agencies, the percentage of Personnel Code-covered Asian American State employees in the agency workforce is higher than the overall percentage of Asian American Personnel Code-covered State employees. Considering percentage terms alone, there are seven state agencies at which the percentage of Asian American Personnel Code-covered State employees is higher than the percentage of Asian Americans in the overall Illinois population.

In calendar year 2014, 151,353 open competitive exams were administered to applicants seeking State employment. Of those, 3,721 were administered to Asian Americans. Sixty-nine percent of Asian Americans who took these exams received qualifying grades. This passage rate is comparable to other applicants at 71 percent.

The statistical data from this report shows that while there are several agencies with an Asian American workforce near or on par with the overall population percentage of Asian Americans in Illinois, within the vast majority of agencies, the percentage of Asian American Personnel Code-covered employees is well below the percentage of Asian Americans in the Illinois population.

III. Current Demographics

Based on State employment workforce statistics as of December 31, 2014, approximately 2.5% of the Personnel Code-covered State employees are Asian American (1,098). Setting that figure in context, Asian Americans comprise 5.2% of Illinois' general population (based on the 2010 census). The eight Illinois counties with the highest population of Asian Americans are listed below followed by the corresponding number of Personnel Code-covered Asian American State employees.

COUNTY	% ASIAN AMERICAN POPULATION	ASIAN AMERICANS AS % STATE WORKFORCE
Cook	(322,672) 6.2%	(457) 4.86%
Du Page	(92,304) 10.1%	(27) 4.84%

Sangamon	(3,220) 1.6%	(197) 2.08%

There are 1,098 Asian American Personnel Code-covered State employees. The five agencies with the largest number of Asian American Personnel Code-covered employees are indicated below, followed by the number of Asian American Personnel Code-covered employees and their percentage of the total agency workforce.

AGENCY	COUNT OF ASIAN AMERICAN EMPLOYEES
Department of Human Services	523 (4.2%)
Department of Public Health	81 (7.1%)
Department of Revenue	73 (4.3%)
Department of Healthcare & Family Services	66 (3.2%)
Department of Corrections	58 (.5%)

In calendar year 2014, 151,353 open competitive exams were administered, 8 percent or 12,551 fewer exams than in 2013. Of those, 3,721 were administered to Asian Americans. The chart below illustrates how Asian Americans fared when compared to all applicants. Compared to other applicants, Asian Americans passed at a comparable rate: 69% of Asian Americans who took the exams passed, compared to 71% of other applicants.

In the Upward Mobility Program, there was an increase in Asian American employee participation during 2014. There were 49 Asian Americans enrolled in 2014 compared to 13 that were enrolled in 2013. There were 9 Asian Americans promoted under the program during 2014 compared to the 4 in 2013.

Veterans are provided preference in state hiring, which may influence minority hiring among state agencies. Veterans account for 18.1% of the total Personnel Code-covered employee workforce. There are a total of 7,994 veterans employed in Personnel Code positions, including 46 Asian American veterans. Asian American veterans account for 0.58% of the state employee veterans. The agencies with highest number of veterans are shown below along with the total number of Asian American veterans.

In the tables above, notable changes in the statistics compared to 2013 are as follows:

- The total number of Asian Americans in the state workforce increased by 31 employees, but because there was an overall increase in state employment numbers the percentage of Asian Americans employees remained at 2.5%.
- The total number of Senior Public Service Administrators (SPSAs) who are Asian American decreased slightly from 38 to 33.
- The number of Asian American Public Service Administrators (PSAs) increased by three from 90 to 93, resulting in a slight percentage increase to 3.1% from 2.99%.

IV. 2014 State Asian American Employment On-line Survey and Best Practices

To standardize how information is gathered, CMS in collaboration with the AsAEP Advisory Council developed an on-line survey to assist agencies in reporting specific activities and data relevant to Asian American State employees. This on-line survey was launched in December of 2013 and was administered again in December of 2014, requiring all agencies with Personnel Code-covered employees to respond. The intent of this survey was to gather information as required by the legislation to develop benchmarks from which the AsAEP could be developed and evaluated in subsequent years.

The completed surveys from each agency are available in the appendices to this report. All agencies under the jurisdiction of the Governor's Office responded to the survey request. Survey responses included some richly detailed qualitative data that will allow the AsAEP Advisory Council to track and monitor strategies and best practices used by some agencies that have been successful in recruiting, hiring, promoting, and retaining Asian American employees. Survey results also will allow monitoring of agencies in order to track their efforts to address underutilization of Asian Americans in the State's workforce.

Responses from the 2014 Asian American Employment Plan Survey include the following excerpted highlights and Best Practices:

- Maintain an electronic mailbox for all inquiries regarding employment opportunities, recruitments, applications and general questions.
- Develop and produce recruitment/promotional literature for use when attending recruitment and community events and/or functions.
- Maintain and update the agency's employment opportunity website.
- Conduct workshop sessions designed to address the hiring and interview process.
- Initiate meetings with community stakeholders to create a partnership to increase awareness of employment opportunities, the application process and sources of applicant referrals.
- Prior to posting vacancies alert the staff of the Diversity Enrichment Program.
- Post jobs on outside employment websites: Monster.com, Career Builder, etc...
- Asian Americans accounted for 2.84% of the overall new hires and 2.8% of overall promotions.

-
- There were 409 student interns/student workers hired with Asians Americans accounting for 4.65%.
 - There were 12 Asian American veterans hired out of 981.
 - There are 117 Asian Americans employees who are certified to serve on Rutan interview hiring panels, which is an increase from the 88 reported in 2013.

Based on evaluations of the surveys, observation, and discussion with Asian American Employment Plan Advisory Council members and agency liaisons, additional recommendations were made about general Best Practices for improving the recruitment, hiring, retention, and promotion of Asian American state employees:

- Agencies under the Governor's Office jurisdiction should designate a representative to serve as an ex-officio member of the Asian American Employment Plan Advisory Council
- Agencies are advised to meet individually with the Governor's Office and/or CMS staff member who provides administrative support for the Asian American Employment Plan Advisory Council in order to discuss strategies to address underutilization of Asian Americans within their agency.
- Agencies should assign recruiters to attend one the targeted recruitment workshops and job fairs organized to inform Asian American community members about the State employment process.
- Agencies should have Recruitment and Selection units that meet regularly to address underutilization numbers and discuss recruitment strategies.
- Agencies should reach out to the AsAEP Advisory Council, CMS Diversity Enhancement Program staff, or others with the appropriate expertise in order to improve their outreach and targeted recruitment efforts in the Asian American community.
- Agencies could establish an Asian American Advisory Council and a specifically designated position focused on Asian American Services to engage in community outreach, advocacy, and training in the Asian American community, and recruitment.
- Agencies with the best track record of recruitment and hiring of Asian Americans have Asian Americans in key leadership positions.

VII. Conclusion

According to the 2010 U.S. Census data, Asian Americans comprise slightly more than five percent of Illinois' population, but to date, comprise only about 2.5 percent of State employees. The first AsAEP Advisory Council took a closer look at underutilization goals across all agencies, counties, and job titles and developed an annual comprehensive plan to assist agencies to meet their individual objectives. The data reported within this report indicate that 47.3% of the State's Asian American State employee workforce remains concentrated within one agency, the Department of Human Services, where the 523 Asian American employees constitute 4.2% of the agency's workforce. Among the five agencies with the highest number of Asian American employees, four agencies, the Department of Human Services, Department of Public Health, Department of Revenue, and Department of Healthcare and Family Services, increased their number of Asian American employees in 2014, and the number at the fifth agency, the Department of Corrections, remained the same. Six agencies (the Illinois Arts Council, the Criminal Justice Authority, Illinois Environmental Protection Agency, the Labor Relations Board, the Law Enforcement Training and Standards Board, and the Department of Public Health) have percentages of Asian American state employees that exceed the percentage of Asian Americans in the state population. However, at the vast majority of agencies, the percentage of Asian American employees is well below the percentage of Asian Americans in the Illinois population.

The 2013 AsAEP helped the State of Illinois begin the process of improving the representation of Asian Americans at all levels of the state workforce by:

- Establishing the AsAEP Advisory Council, appointed by the Governor, which met once each quarter and set goals and objectives as may be required to increase the opportunities for hiring, retaining and promoting Asian Americans in the state workforce.
- Designating an AsAEP Coordinator within the Department of Central Management Services and the Governor's Office to work jointly with the AsAEP Advisory Council to ensure that the goals of the Plan are met.
- Referring to established benchmarks to measure the State's efforts.
- Incorporating individual agencies' best practices into Statewide practices.
- Developing a standard process for all agencies to use when developing strategies for recruitment, hiring, retention and promotion.
- Working with agencies on targeted outreach for recruitment and assistance with the State employment application process.

The work progressed in 2014 with:

- Continued quarterly meetings attended by the 11 AsAEP Advisory Council appointees and more than 43 designated representatives (ex-officio members) from state agencies.
- Targeted meetings with the Director and key staff members of state agencies
- Regularly organized opportunities for state agencies to recruit within the Asian American community.
- Outreach efforts that inform the public about the state employment recruitment process
- Cooperation by community leaders to convey and disseminate information about job opportunities with state agencies.

Over the course of the coming year, the goals and objectives outlined in this report will be adjusted and broadened to improve career opportunities for Asian Americans in the State workforce, and for improved service to all citizens of Illinois. Ideas that will be pursued and developed over the upcoming year include:

- Further expanding a standardized list of community contacts for state agencies to reach directly with job announcements and employment opportunities.
- Repeat the cycle of recruitment workshops that are held in partnership with Asian American community organizations in various locations where there is significant population concentration.
- Develop a recruitment webinar that can be used to inform applicants about the application process and supplement the in-person presentations that are currently conducted.
